EDUCATION

2025 - 2029
UNIVERSITY OF KELANIYA

- BSc in Information Technology (Reading)
- GPA: 3.7 / 4.0 (Current)

SKILLS

- Project Management
- Teamwork
- Time Management
- Leadership
- Critical Thinking

TOOLS & TECHNOLOGIES

- Arduino / C ++
- Solidworks
- Webots

PROFILE

I am a dedicated Information Technology undergraduate and aspiring IoT Engineer with a strong academic standing (Current GPA 3.7/4.0). I am seeking an internship opportunity to apply my practical experience in embedded systems and automation to real-world engineering challenges. My primary interests lie in developing smart solutions, sustainable resource management systems, and efficient IoT solutions.

PROJECTS

- Automated Water Management System** 2020 - 2021
For Doralawitiyahena Tea Factory (Rathnapura)
 - Designed a centralized real-time tank monitoring system that significantly reduced water waste and optimized resource usage.
 - Tools used - (Arduino (esp 32), Bylink)
- Automated Green House Smart System** 2026
For Sri Gnanadoya Central College , Divulapitiya
 - Developed and implemented a system to control the enviroment based on sensor reading. (More deatail on my linkidn page)
- Smart Attendance Monitoring System**
For Isuru School Bus Service
 - Developed an automated student tracking system using RFID keytags and GSM modules to send real-time SMS safety alerts to parents.
 - Tools used - (SolidWorks / GSM / Arduino)

ACHIEVEMENTS

- Codeunio Hackathon (2023)** 25 MAR 2023
 - Secured 3rd Place.
